

As a family you may have had a rare opportunity to get together over the Christmas period. This may get siblings talking and concerns may arise that elderly parents are showing signs of no longer coping at home.

# AGED CARE - The Burning Issues Seminar

The financial implications of moving to aged care.

**18th of February 2016**

BAYVIEW GOLF CLUB

The decision to transition a family member into an aged care facility is one of the hardest you'll ever have to make. The process is made even more difficult by the complex and foreign financial landscape that needs to be navigated.

Come to our evening seminar at Bayview Golf Club on the 18th of February 2016 for a great primer on all the steps to be considered hosted by Blenkhorn Financial Planning who specialize in helping people manage their finances during life's turning points.

#### Learn about 3 critical issues

- Negotiating the expenses: Accommodation bonds, payment options & facility fees.
- What happens with the family home & looking after both partners?
- Why finding the right facility that best suits your family & finances is so vital & how to negotiate all the steps that must be considered.

There will be a short presentation, time for Q & A's and a light supper served. We really look forward to meeting you. If you would like further information or some specific assistance in the meantime please contact Julia Blenkhorn at our office in Mona Vale 9997 7007.

**We are passionate about education and empowering you to make great decisions.**
